HISTORICAL ORDNANCE SURVEY MAPS
Historical Mapping Legends

**Ordnance Survey County Series and Ordnance Survey Plan 1:2,500**

- Quarry
- Gravel Pit
- Sand Pit
- Clay Pit
- Slagheap
- Refuse Heap
- Cutting
- Embankment
- Railway crossing
- Road Level Crossing
- Road crossing
- River or Canal
- Road over single stream
- Road over River or Canal
- Railway crossing
- River or Canal
- Bridge
- Foot Path
- Guide Post or Board
- Telephone Call Box
- Mile Stone
- Mile Post or Ring
- Top
- Bottom

**Historical Survey Plan, Additional SIMs and Supply of Unpublished Survey Information 1:2,500 and 1:1,250**

- Inactive Quarry, Chalk Pit or Clay Pit
- Active Quarry, Chalk Pit or Clay Pit
- Bluff
- Boulders
- Gravel
- Rock
- Boulders (scattered)
- Positional Boulder
- Soil
- Non-Coniferous Tree (surveyed)
- Coniferous Tree (surveyed)
- Non-Coniferous Trees (not surveyed)
- Coniferous Trees (not surveyed)
- Orchard Tree
- Scrub
- Bracken
- Copse, Osier
- Reeds
- March, Sealings
- Rough Grassland
- March, Sealings
- Cope
- Heath
- Rough Grassland
- Electricity Transmission Line
- Electricity Pylon

**Large-Scale National Grid Data 1:2,500 and 1:1,250**

- Electricity Transmission Line
- Electricity Pylon
- Benchmark
- Buildings with Building Seed
- Glazed Roof Building
- Roofed Building
- Glazed Roof Building
- Bench Mark
- Trigon Station
- Triangulation Station
- Electricity Transmission Line
- Electricity Pylon

**Historical Mapping & Photography included:**

- Ordnance Survey County Series and Ordnance Survey Plan 1:2,500
- Administrative County & Civil Parish Boundary
- County Borough Boundary (England)
- County Burgh Boundary (Scotland)
- Historic Survey Plan, Additional SIMs and Supply of Unpublished Survey Information 1:2,500 and 1:1,250
- Large-Scale National Grid Data 1:2,500 and 1:1,250
- Boundary mapping symbol (note: these always appear in opposed pairs or groups of three)

Lancashire And Furness
Published 1893
Source map scale - 1:2,500

The historical maps shown were reproduced from maps predominantly held at the scale adopted for England, Wales and Scotland in the 1840s. In 1864 the 1:2,500 scale was adopted for mapping urban areas and by 1896 it covered the whole of what were considered to be the cultivated parts of Great Britain. The published date given below is often some years later than the surveyed date. Before 1938, all OS maps were based on the Cassini Projection, with independent surveys of a single county or group of counties, giving rise to significant inaccuracies in outlying areas.

Ordnance Survey Plan
Published 1960 - 1962
Source map scale - 1:2,500

The historical maps shown were reproduced from maps predominantly held at the scale adopted for England, Wales and Scotland in the 1840's. In 1854 the 1:2,500 scale was adopted for mapping urban areas and by 1896 it covered the whole of what were considered to be the cultivated parts of Great Britain. The published date given below is often some years later than the surveyed date. Before 1938, all OS maps were based on the Cassini Projection, with independent surveys of a single county or group of counties, giving rise to significant inaccuracies in outlying areas.
Additional SIMs
Published 1978 - 1984
Source map scale - 1:1,250

The SIM cards (Ordnance Survey's 'Survey of Information on Microfilm') are further, minor editions of mapping which were produced and published between the main editions as an area was updated. They date from 1947 to 1994, and contain detailed information on buildings, roads and land-use. These maps were produced at both 1:2,500 and 1:1,250 scales.

The SIM cards (Ordnance Survey’s ‘Survey of Information on Microfilm’) are further, minor editions of mapping which were produced and published in between the main editions as an area was updated. They date from 1947 to 1994, and contain detailed information on buildings, roads and land-use. These maps were produced at both 1:2,500 and 1:1,250 scales.
Large-Scale National Grid Data
Published 1993
Source map scale - 1:1,250

‘Large Scale National Grid Data’ superseded SIM cards (Ordnance Survey’s ‘Survey of Information on Microfilm’) in 1992, and continued to be produced until 1999. These maps were the forerunners of digital mapping and so provide detailed information on houses and roads, but tend to show less topographic features such as vegetation. These maps were produced at both 1:2,500 and 1:1,250 scales.

Supply of Unpublished Survey Information

Published 1973 - 1974

Source map scale - 1:1,250

SUSSI maps (Supply of Unpublished Survey Information) were produced between 1972 and 1977, mainly for internal use at Ordnance Survey. These were more of a 'work-in-progress' plan as they showed updates of individual areas on a map. These maps were unpublished, and they do not represent a single moment in time. They were produced at both 1:2,500 and 1:1,250 scales.

Key to Numbers on Mapping

Russian Map - Slice A
The historical maps shown were reproduced from maps predominantly held at the scale adopted for England, Wales and Scotland in the 1840s. In 1854 the 1:2,500 scale was adopted for mapping urban areas; these maps were used to update the 1:10,560 maps. The published date given therefore is often some years later than the surveyed data. Before 1938, all OS maps were based on the Cassini Projection, with independent surveys of a single county or group of counties, giving rise to significant inaccuracies in outlying areas. In the late 1940s, a Provisional Edition was produced, which updated the 1:10,560 mapping from a number of sources. The maps appear unfinished - with all military camps and other strategic sites removed. These maps were initially overprinted with the National Grid. In 1970, the first 1:10,000 maps were produced using the Transverse Mercator Projection. The revision process continued until recently, with new editions appearing every 10 years or so for urban areas.
Lancashire And Furness
Published 1894 - 1895
Source map scale - 1:10,560
