

APPENDIX 3

Nov. 20/13

21 NOV 2013

[REDACTED]

BURNLEY

Local Government Act 1972, Section 122(2A)

I object to the intended appropriation of the land which is in continuous use bordered by

Parkinson St - Glebe St - Kirkgate and Dale St.

My reason for objection is that this land has historically been used for recreation for many years and is still a haven for the children and senior citizens of Burnley Wood.

and also the young children

There are many lovely mature trees, which will be lost.

[REDACTED]

The alternative 'Terracefields' is in complete darkness after 5:0 pm and too dangerous for the 'oldies'

APPENDIX 3

21 NOV 2013

19th November 2013

To Sirs,

re: Development of land between Glebe Street
Pankinson Street & Kirkgate

We wish to object to the appropriation of the above land, which is described in the planning application as "open space". This area is obviously not just open space, it contains a Community Centre which is in constant use. The surrounding area is floodlit and marked out, showing that this space has been provided by the council for recreational use by the youth of the area.

The adjoining small park is a safe place for families to enjoy, being adequately fenced, so making this a secure area for small children to play.

The area desperately needs this amenity to keep the community together and keep their children healthy and safe.

Yours faithfully
